WORK EXPERIENCE

Senior Software Engineer June 2025 — Present
Luxoft, a DXC Technology Company Gurugram

- Working on S&P Global's CLM Taxonomy initiative supporting Buy Side and Sell Side contract standardization, data classification, and onboarding workflows for B2B financial clients.

Senior Software Engineer May 2020 — Nov 2025
Gemini Solutions Pvt Ltd Gurugram

- Designed, implemented and unit-tested responsive Angular front-end applications for portfolio analysis and target date fund tools, ensuring seamless integration with backend APIs and strong usability.
- Developed and optimized RESTful services using Java Spring Boot, unit and integration testing using JUnit, incorporating Redis caching to improve system scalability and web performance.
- Migrated an on-premises system to a cloud-based environment using AWS services such as Lambda and SQS, and developed an efficient performance-metrics analysis engine in Java while optimizing SQL queries, procedures, and database integrations to enhance performance and ensure data accuracy.
- Engineered automated PDF reporting solutions with the iText library, delivering client-ready reports featuring complex chart visualizations and scalable design.
- Conducted code reviews, and peer inspections, mentoring junior developers across frontend and backend teams to enforce coding standards and maintain high-quality deliverables.

Software Developer Aug 2019 — May 2020
Think Future Technologies Gurugram

- Worked on several technologies like Angular, Vue.JS, resolving bugs and doing tasks
- Conducted unit and function testing using chai and mocha to deliver optimal browser functionality
- Developed, reformed and improved web applications
- Converting large scale UI Designs into Code, conducting UX collaboration with the design team
- Coordinated with both Large and Small Teams in front end roles

Software Developer Intern June 2019 — Aug 2019
Think Future Technologies Gurugram

- Worked on Angular 7+, CSS and HTML. The role includes working on new features, creating screens as per requirements, improving features and unit testing.

Software Developer Intern March 2019 — April 2019
Valencea Gurugram

- Worked with Angular 7 and PHP Physiotherapy Clinic project with a small core product team.

EDUCATION

B.Sc.(Hons.) Computer Science New Delhi
Sri Guru Gobind Singh College Of Commerce, Delhi University (CGPA: 8.18) 2016 — 2019
